ABOUT US

UBK INFOTECH PVT LTD is a progressive software provider dedicated to simplifying the online organization and management of educational institutions. We offer solutions that eliminate administrative burdens and optimize student communication. Our platform allows students to access their personalized data through individual profiles, helping them optimize the time they spend on school work.

In addition, UBK INFOTECH PVT LTD provides cutting-edge technological solutions, enabling institutions to focus on enriching students' minds while we ensure their safety.

We aim to relieve teachers from administrative tasks, allowing them to focus solely on their teaching.

As a growing ERP enterprise poised to revolutionize institutional administration, we provide end-to-end solutions that bridge the gap between all stakeholders involved in the management of schools and colleges. Our goal is to ensure seamless communication and smooth operations among these stakeholders.

Our Mission

- Maintaining high expectations and performance standards for all students.
- Ensuring academic accountability, financial responsibility, and clear communication.
- Engaging in innovative instruction, proficient use of technology, and expanding student opportunities.
- Delivering quality instruction in safe, clean, and well-maintained institutions.

Our Vision

One of our visions for the future is to provide students with a more effective and accessible, enhanced, interactive experience through technology, helping them develop their abilities in a non-traditional way.

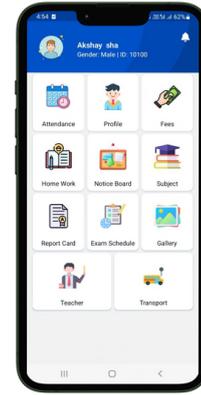

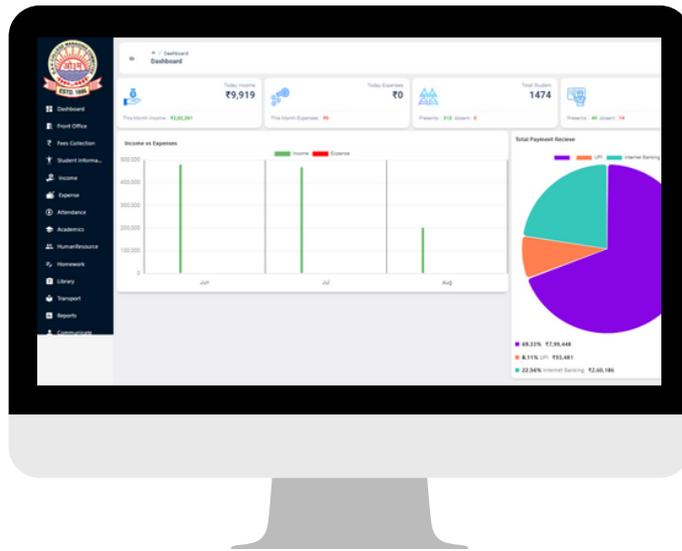

🛡 100% Safe and Secure Data

What Is RFID - Radio Frequency Identification?

- An RFID tag is a microchip combined with an antenna in a compact package. The packaging is designed to allow the RFID tag to be attached to an object for tracking purposes.

- RFID systems can operate at different frequencies. We work with the **following two frequencies**:

LF - Low Frequency

- Low Frequency
- Touch System

UHF Ultra High Frequency

- Ultra High Frequency
- Zero Touch System
- Range 15 Meter

Flap Barrier

Flap barriers provide security at the exit and entry points of factories, metro stations, airports, offices, colleges, schools, gyms, clubs, and more.

Flap barriers ensure that only authorized personnel can access the premises. They allow one person to pass at a time and are used to control entry and exit in designated areas. Known for their fast access control, flap barriers are available in both single-lane and multi-lane options.

Why RFID Technology?

- The main objective of this project is to automatically record and track the attendance of students using RFID tags.
- It improves student safety and security.
- It enables better management of the institution.
- It increases operational efficiency.
- It eliminates the need for manual effort.
- Access to real-time data.

UBK INFOTECH PVT LTD

AI- based Attendance System
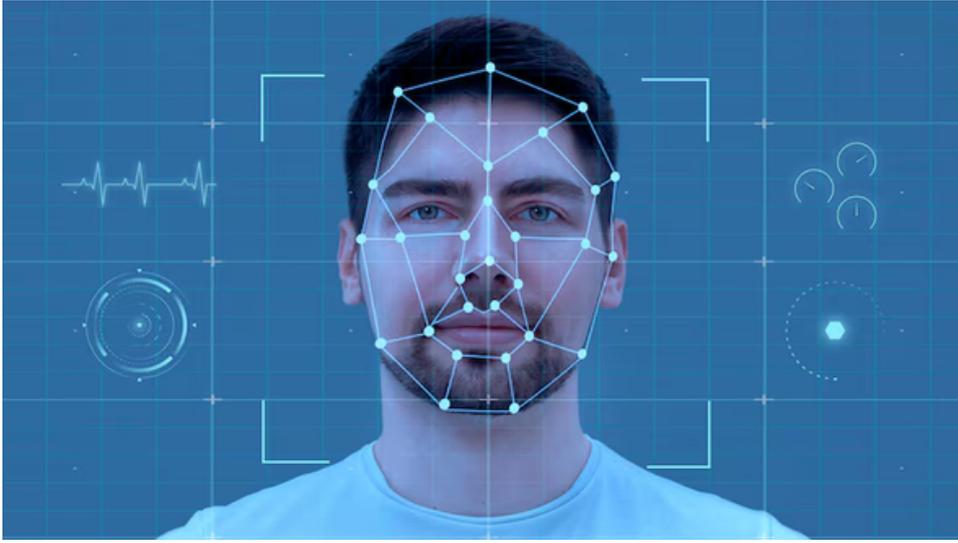

UBK INFOTECH Pvt Ltd introduced a school and workforce management software that includes an AI-based attendance system and an "India's first" AI-enabled RFID attendance system. Key features include:

- Automation: The system automates attendance tracking through AI facial recognition and RFID technology, eliminating manual data entry and potential errors.

- Integration: It integrates with complete school management systems, handling payroll, online exams, library management, and other functions.

- Safety Features: For students, it includes a small GPS device that allows parents to track their child's location and sends automated alerts in case of trouble.

- Cloud-Based: Records are stored securely in the cloud, allowing real-time monitoring and reporting from various devices.

UBK INFOTECH PVT LTD

🛡 100% Safe and Secure Data

A Hassle-free and 100% Cloud-Based Education Management System

The success of educational institutions largely depends on how they manage relationships and communicate with key groups, including students, parents, alumni, teachers, and staff. Managing educational organizations is a complex task. On one hand, it requires robust data management capabilities to organize information and make it easily accessible. On the other hand, it demands continuous, smooth, and optimized operations. Attendance tracking with analysis is a key part of this process.

Key of Features

Attendance with Analysis
- Daily student's attendance with present-absent-leave management
- Various attendance reports for quick analysis
- No touch attendance for students
- Biometric attendance for faculty
- Notify absent student's guardian by SMS and app notifications

Accounting Module
- All in one accounting management
- User wise ledger and expense/income reports
- All credit and debit entry in your digital passbook
- Vendor Management
- Store Management
- Journal Entry
- Sales and purchase entry

Fees Management
- Implement any pattern (monthly, quarterly, half-yearly and yearly)
- Ready to use fee templates of classes for quick fee allotment
- Fees Master Setting
- Automatic Fees Reminder
- Manage student level discounts
- Fess collection Report
- Auto late calculation and many more feature

Admission Enquiry
- Managing all student enquiries
- Get enquiry report analysis
- Create enquiry follow up till admission of student

User profile directory
- Get all profile data of staff & students
- Offline supported
- Search user based on name or mobile and get full details anywhere
- Notify absent student's guardian by SMS and app notifications

HR Management
- Enable/disable users for app access
- Detailed profile to see all required data at single place
- Personal records with hide option
- Role based and discrete permission
- Payroll Management
- Automatic Salary Calculation

School Calendar
- Manage events that matters you for staff or whole institute
- Manage holidays for no-attendance days
- Auto notify the Student

Library Management
- Add Books
- Issue and Return
- Generate the Barcode
- Barcode Scanning
- Manage fine
- Auto Remainder
- Reports

School/College ERP Mobile App To Bring Your Students Online

- **Go Paperless Send Homework Online**

Sharing and collecting assignments has never been easier for teachers. Students can submit their assignments as an image, document, or PDF, on or before the due date.

- **All That You Need To Run Classes And Nothing More**

Run your classes and engage with students without worrying about cyberbullying. Personal details, such as email addresses and phone numbers, are kept invisible to others at all times.

- **Collect Fees Anytime. Anywhere**

Verify your account details and start collecting fees for your school. Send automated reminders to students and parents, and offer them a variety of payment options, including credit and debit cards, wallets, UPI, and bank transfers.

- **Auto Debit Option**

Auto-debit is a facility that credit/debit card issuers offer to allow scheduling recurring payments for auto-deduction on a set date. school fees will automatically deduct an amount that you pre-set.

UBK INFOTECH PVT LTD

School Benefits:

It will enhance the institute's image by demonstrating to parents that you care about the security of their children. It also helps reduce irregularities and student absences. The system will assist the authorities in simplifying administrative tasks, saving both resources and time.

- Student Nano chip-based Identity Card at zero cost.
- Staff attendance with digital payroll management systems at no cost.
- The institute is upgraded to a digitized platform, taking a step ahead of its competition.
- It puts the institute a step ahead of its competition.
- A complementary push notification facility to send alerts about holidays, notices, events, and more
- Child Security and Safety
- Every day, the school will receive an automatic real-time attendance report.
- Transportation Tracking System*
- Library Management

Parent's Benefits:

Thousands of students go missing from schools in India every year. In most cases, the student did not report to school or left on time but didn't return home, and we only realized it too late. If parents or school authorities had been notified earlier about the unusual delay or absence, the tragedy could have been prevented. Our system ensures that parents receive a notification message at least twice a day, allowing them to relax and focus on their work.

- Parents receive instant alerts about their child's attendance regularly.
- Parents receive instant alerts for holidays, notices, events, and more.
- Parents can check their child's attendance record, payment status, and marks online.
- Parents can also track the school bus's location.
- Parents can pay their child's fees online.
- Enhance the relationship and communication between school authorities and parents.

PAYMENT SOLUTION

POS (Point of Sale)

A POS device for schools is a secure and fast payment solution that simplifies fee collection. It accepts debit cards, credit cards, UPI, and QR payments, reducing cash handling on campus.

- Easy Fee Collection– Accept school fees instantly
- Multiple Payment Modes – Debit Card, Credit Card, UPI & QR Payments
- Fast & Secure Transactions Encrypted and RBI-compliant
- Compact & Portable Device – Easy to use anywhere on campus
- Daily Transaction Reports – Simple tracking and reconciliation

School's Benefits:

- Reduces cash handling risks & Saves administrative time
- Improves payment transparency
- Faster fee collection process, Accurate record-keeping
- Professional payment experience for parents

Digital QR

The Digital QR Code Device is a smart payment solution designed to simplify collections and reduce cash handling. It enables instant payments through UPI and QR scanning, making transactions quick, safe, and hassle-free.

- Faster and smoother fee collection
- Reduced cash handling and related risks
- Accurate digital records and easy reconciliation
- Saves staff time and improves efficiency
- Secure, transparent, and contactless payments

UBK UBK INFOTECH PVT LTD

Self Payment System (Payment Kiosk)

A Self Payment Kiosk for schools allows parents and students to pay fees easily on campus using cards, UPI, or QR payments. It reduces queues, saves staff time, and ensures fast, secure, and cashless transactions.

Benefits:

- Faster fee payments with minimal waiting time
- Reduces workload for school office staff
- Supports secure, cashless payments (cards, UPI, QR)
- Available during school hours for convenient access
- Improves accuracy with instant digital records
- Enhances parent experience with easy self-service payments
- A smart solution for smoother and more efficient fee collection.

What is E-NACH

E-NACH (Electronic National Automated Clearing House) is a digital authorization system that allows automatic and secure transactions or registrations without paperwork.

Benefits Of eNACH

Automated Process
Recurring Payments Made Fast & Efficent

Hassle-Free Fund Transfer
Convienient To Customers

Paperless Workflow
Carry Out Mandates Remotely

How It Works

- User provides digital consent
- Data is verified electronically
- Process is completed automatically
- No physical forms or manual work

Key Features

- Paperless process
- Fast and secure authorization
- Reduces human errors
- Time-saving and efficient
